MASSEY FERGUSON

It's your land, your little plot of heaven. You worked hard for it, and you fully expect to work hard on it. Now, all you need is the right tractor. The Massey Ferguson® 1700E Series compact tractor is your tractor. Economical and versatile, it's the perfect partner for virtually any chore or project.

The simple, no-nonsense design comes in a standard 4WD platform, and you choose either a 3-range hydrostatic transmission or an 8 x 8 Synchro Shuttle. With up to a 38.5 HP engine, this is an affordable, practical tractor that won't sacrifice performance.

TWO MODELS TO CHOOSE FROM.

1735E

Midlevel model perfect for a finish mower, box blade, or garden tiller.

1740E

Higher horsepower and hydraulic flow for those who need it. Provides quicker loader response and handling.

TWO TRANSMISSIONS

8 x 8 Synchro Shuttle

Quick directional changes with just a push of a clutch and a pull of a lever. Best suited for heavy ground-engaging work and field work. Third and fourth gears are synchronized, so no need to stop to shift.

Hydrostatic

Perfect for back and forth loader work and mowing around obstacles. New operators will find this easy to use. Press the forward pedal to go forward. Press the reverse pedal to go back. Let go of the pedal and the machine will come to a stop.
