

MASSEY FERGUSON

2700E Series

FROM MASSEY FERGUSON
A world of experience. Working with you.

A TRACTOR THAT WORKS AS HARD AS YOU DO.

MY LAND. MY MASSEY.™

MASSEY FERGUSON

Combining the practicality of a compact tractor with the functionality of a utility tractor, the versatile 2700E Series is ideal for rural lifestyle customers, hobby farmers, farm-to-table and small businesses. Or just people with a lot of property and a lot of jobs to wrangle. Like them, these are hardworking, roll-up-your-sleeves tractors.

The simple, no-nonsense design comes in a standard 4WD platform, and you choose either a 3-range hydrostatic transmission or an 8 x 8 Synchro Shuttle. With up to a 48.8 HP engine, this is an affordable, practical tractor that won't sacrifice performance.

TWO MODELS TO CHOOSE FROM.

2750E

Our first large-frame economy compact model. Get the size you need without extra horsepower.

2760E

Higher horsepower for those who need it. Big enough to manage the load but small enough to still be versatile.

TWO TRANSMISSIONS

8 x 8 Synchro Shuttle

Quick directional changes with just a push of a clutch and a pull of a lever. Best suited for heavy ground-engaging work and field work. Third and fourth gears are synchronized, so no need to stop to shift.

Hydrostatic

Perfect for back and forth loader work and mowing around obstacles. New operators will find this easy to use. Press the forward pedal to go forward. Press the reverse pedal to go back. Let go of the pedal and the machine will come to a stop.

THE RIGHT MIX OF ECONOMY AND PERFORMANCE.
